

## PA6 Ø100/110 universal

**Model no. 15 43 93 016**

Rat blocker for installation in cleaning & inspection wells in concrete Ø100 & Ø110 pvc.

Tolerance inner pipe measurement: Ø100 - 104mm

**Rat blocker PA6** is fabricated with sides of nylon and reinforced with 50% glass fiber. This makes **PA6** especially suitable for installation in concrete wells and older pipes made of PVC. The rat blocker is constructed with reversible valves so that the rat blocker can be installed in both the inlet and drain-side.

In wells with a depth greater than 1 meter, the rat blocker can be fitted with an alignment rod model no. 15 43 90 801. Length 1 m.

An alignment rod can be extended with an alignment-extensio length 1 meter per. unit.
