

TX11 Ø300 Bet./315 PVC for CIPP lined pipe

Model no. 15 43 92 235

Tolerance inner pipe measurement: Ø275 – 282 mm

Rat blocker for installation in the sewer line wells and inspection chambers with CIPP lined pipe.

Rat blocker TX11 is carried out with reversible valves so that the rat blocker can be fitted both in the inlet & drain side.

The rat blocker in dimensions greater than Ø250 can not currently be VA-approved since there is a regulatory framework for VA-approval of rat blockers larger than Ø250.

In wells with a depth greater than 1 meter, the rat blocker can be fitted with an alignment rod model no. 43 90 801. Length 1 m.

An alignment rod can be extended with an alignment extension Model no. 15 43 90 802, length 1 meter per. PCS.
